

I didn't know

VERSE 1

The warning I can read
Is telling me not to be
This way

The only store is closed
And I've got no purpose
To stay

CHORUS

I didn't know
That somewhere under this crap
There was a piece of air to breathe
I didn't know
That somehow under my head
There was still a new life to live

VERSE 2

I wanted to believe
That my soul couldn't leave
My body

I wanted just to feel
What was like to be puerile
To be nothing less than real

BRIDGE

Nothing less than real

VERSE 3

The only soul that's here
It's the one that I most fear

The only song I like
It's the one that I can't hear

CHORUS

I didn't know
That somewhere under this crap
There was a piece of air to breathe
I didn't know
That somehow under my head
There was still a new life to live

VERSE 4

I wanted to move on
But I didn't have a horn
To perform

I wanted just to take
Everything that I've lost
On my break

CHORUS

I didn't know
That somewhere under this crap
There was a piece of air to breathe
I didn't know
That somehow under my head
There was still a new life to live
