

Nothing but a simple woman

VERSE 1

I'm glad the mountain's high
But I'm on top of it wondering: is it too high for me to fall?
And would things be any different
If I didn't have it all?

VERSE 2

There are things I can take
Like broken bones, bloody wounds, bruises all over the place
But if I'm meeting with the devil
I'd like to do it face-to-face

PRE-CHORUS

(So) Tell me why
Because I can't understand the way
That every minute I'm away
From you I want to die
Used to be easy to forget this kind of feelings
Maybe all those stories weren't a lie
Mom used to really try
To tell me

CHORUS

(And) That's when I knew
That between all those years, all the tears and goodbyes
That even incomplete I could stand on my feet for you
(And) That's when I knew
That between all those fears, wrong frontiers, all those lies
I could still be discrete love without having to cheat for you
That's when I knew

BRIDGE

Full of glow and shine
During all these years my soul has been too hidden for me to see
But you came and left it in the open
Honey baby
Know that I'm
Nothing but a simple woman
She's nothing but a simple woman
Who will always let you break her heart
I'll always let you break my heart... heart... heart... heart...

VERSE 3

I don't talk about the past
Think of my mother but in the meantime
Some things were just too rough
Back to when everyone kept telling me
Hey girl you ain't enough

VERSE 4

No stranger in my bed
And to be true don't even care if you have blue or hazel eyes
But if you're crying today
Don't worry, because every tear dries

Nothing but a simple woman

PRE-CHORUS

(So) Tell me why
Because I can't understand the way
That every minute I'm away
From you I want to die
Used to be easy to forget this kind of feelings
Maybe all those stories weren't a lie
Mom used to really try
To tell me

CHORUS

(And) That's when I knew
That between all those years, all the tears and goodbyes
That even incomplete I could stand on my feet for you
(And) That's when I knew
That between all those fears, wrong frontiers, all those lies
I could still be discrete love without having to cheat for you
That's when I knew
