

# STUCK BETWEEN YEARS

**VERSE 1** **Am**  
The sound of dishes when they fall on the ground  
How to live when even laughter's a wound, so profound **E**  
It hurts every time I turn around **Am**

**VERSE 2** **Am**  
The blood that flows when a knife touches your skin  
Always listening to Wallace's violin **E**  
Like there's nothing else to win **Am**

**CHORUS**  
Help me because I'm stuck between years **E**  
I've tried to kill my fears and I've tried to dry my tears **G D**  
But I **Am**  
Help me because I'm stuck between years **E**  
I've tried to earn the cheers, but I stopped listening to my ears **G D**  
But I **Am**  
I couldn't just look back **E G**  
And not to feel like coming back, coming back in time **D Am**  
I couldn't just look back and not to feel like coming back, **E G D**  
Coming back in time

**VERSE 3** **Am**  
I'm losing rhythm, losing time, losing will  
My Blues is ruined because of a feeling I used to feel **E**  
But it's no longer real **Am**

**VERSE 4** **Am**  
A million books just this one touches my heart  
If it would bring you back I would go and die on Mars **E**  
Because there's no returning to the start **Am**

# STUCK BETWEEN YEARS

## CHORUS

Help me because I'm stuck between years  
I've tried to kill my fears and I've tried to dry my tears  
But I  
Help me because I'm stuck between years  
I've tried to earn the cheers, but I stopped listening to my ears  
But I  
I couldn't just look back  
And not to feel like coming back, coming back in time  
I couldn't just look back and not to feel like coming back,  
Coming back in time
